Project Design Phase-II

Solution Architecture

Date	23 October 2023
Team ID	Team - 593038
Project Name	ML Model For Occupancy Rates And Demand In The Hospitality Industry
Maximum Marks	10(3 components included)

Solution Architecture:

Solution architecture is a multifaceted process encompassing various sub-processes, serving as the vital link between business challenges and technological resolutions. Its overarching objectives include:

- Identifying the optimal technological solution to address prevailing business issues effectively.

- Articulating the composition, attributes, functionalities, and additional attributes of the software to stakeholders involved in the project.

- Establishing clear-cut features, developmental stages, and solution prerequisites.

- Offering comprehensive specifications that delineate how the solution is conceptualized, supervised, and delivered.
